NOTE:  
 CONTRACTOR TO VERIFY  
 ALL DIMENSIONS AND  
 SITE CONDITIONS PRIOR  
 TO CONSTRUCTION.

General Notes and Disclaimers: These drawings have been prepared for one specific project and location. However, local conditions may require changes. Likewise, building code requirements vary with location and change from time to time. Before starting construction, the builder must review and be responsible for all details and dimensions, and ensure that these plans meet all current requirements in your area. It is also suggested that a local architect and/or engineer be engaged to review and make any changes to ensure that plans meet all local requirements, and that you check with your local building department for any other applicable codes, such as fire, electrical, plumbing, and mechanical. These drawings are not intended to be used for any other project. The drawings are prepared in accordance with the International Residential Code, or any other locally required code. Codes govern over drawings. Dimensions govern over scale. Verify all mechanical requirements before framing. Verify topographic and subsurface conditions, and adapt foundation plans accordingly.

All ideas, arrangements, drawings, and plans set forth on this sheet are the original work product of, owned by, and are the property of Streitberger Home Designs, Inc. No part of these drawings may be reproduced, stored in a retrieval system, or transmitted in any form or by any means, electronic, mechanical, photocopying, recording, or by any information storage and retrieval system, without the written permission of Streitberger Home Designs, Inc. Construction shall verify and be responsible for all dimensions and conditions on the job. This office must be notified of any variations and discrepancies of and from these drawings prior to work on the job.
