Likewise, building code requirements vary with location and change from time to time. Before starting construction, the builder must review and be responsible for all details and dimensions, and ensure that these plans meet all current requirements in your area. It is also suggested that a local architect and/or engineer be engaged to review and make any changes to ensure that plans meet all local requirements, and that you check with your local building department for any other local requirements, such as zoning, setbacks, and other applicable codes.
